### Acknowledgements

The data from each 2013 FARM on-farm research trial was analyzed by Jim Fawcett, ISU field agronomist, with support from Mark Honeyman, coordinator, ISU Research Farms. Jim Fawcett also interpreted the results and wrote the text for the articles.

Note: This is a progress report and, therefore, is not necessarily conclusive. Further data may result in conclusions somewhat different from those reported here.

Annual report, farm, and weather information is available at: [www.ag.iastate.edu/farms/](http://www.ag.iastate.edu/farms/)
